Foot Valve Wheel Stand

Description
Lake bottom support for intake supply line and foot valve assembly. For technical support call Heat-Line at (800) 584-4944.

Kit Contents
• Lake bottom support

Tools Required
• Pump plier (channel lock)

Additional Materials Required
• Foot valve
• Male adapter (consult Heat-Line)
• One bag of pre-mix concrete
• Appropriate length of rope (optional)
• Teflon® tape
• Threaded poly pipe adapter (consult Heat-Line)
• Float (optional)
Foot Valve Wheel Stand Installation Instructions

1

• Using Teflon tape, wrap the threads on the poly pipe adapter.
• Pass threads through appropriate hole in the foot valve stand.

2

• Attach the foot valve to the exposed threads.

3

• If desired, attach a rope and float to aid in installation and retrieval.
• Lower to the bottom of the lake.

4

• Place a pre-mix concrete bag (or other acceptable means) over the pipe, 3’ to 6’ (1 to 2 meters) behind stand to hold it in place. (Bag will cure as water seeps in forming a solid weight). Do not use concrete blocks.
